User Guide for Travelers

Introduction

This guide helps you search, compare, and book stays using [Booking.com](https://www.booking.com) on the web and mobile application. You can use this guide to create an account, search for accommodations, apply filters, view property details, complete bookings, and manage reservations.

Booking.com provides access to hotels, apartments, resorts, villas, hostels, and other property types across multiple destinations. The platform also allows you to view reviews, compare prices, check room availability, and review cancellation policies before confirming a booking.

Intended audience

This guide is intended for:

- First-time users who want to book a stay
- Existing users who want to manage or modify reservations
- Users accessing Booking.com on a desktop browser or mobile app

Prerequisites

Before you begin, make sure that you have:

- Chrome, Firefox, Edge for web app
- Android 8.0 or later, or iOS 16.0 or later for the mobile app
- A stable internet connection
- A valid email address

Sign in or create an account

If you want to sign in or create an account, see [*Getting Started Guide - Booking.com*](#).

Homepage overview

The Booking.com home page helps you search for accommodations, flights, car rentals, attractions, and airport taxis. You can enter travel details, apply filters, view recommendations, and manage bookings from a single interface.
